

K-LOVE radio station in the Chicago area is a very important part of my family radio listening. It helps us with our Christian walk and gives us encouragement via the great music that they play.

The community relies on K-LOVE for great Christian music without commercials. It would be a great loss if they were not able to broadcast. It is important to the Christian community everywhere but specifically Chicago if they were replaced by another radio station.

K-LOVE provides a valuable service to the large segment of the society that calls themselves Christian by providing uplifting music that really touches each person where their need is.
